San Diego, November 29, 2023 – Petco Health and Wellness Company, Inc. (Nasdaq: WOOF), a complete partner in pet health and wellness, today announced its third quarter 2023 financial results.

In the third quarter of 2023, Petco delivered net revenue of \$1.49 billion, down 0.5 percent versus prior year. The company's consumables business was up 1.8 percent versus prior year, and services and other business was up 15.0 percent versus prior year. Growth in the company's consumables and services and other business was partially offset by the company's supplies and companion animal business, down 8.8 percent versus prior year.

During the third quarter, Petco recorded a \$1.2 billion non-cash goodwill impairment charge associated with goodwill originally recorded in fiscal 2015, and due to decline in the company's stock price. This drove a GAAP net loss of \$1.2 billion or \$(4.63) per share compared to GAAP net income of \$19.9 million or \$0.07 per share in the prior year. Included in Q3 EPS is \$0.03 of incremental interest expense year-over-year.

Adjusted Net Income¹ was \$(14.5) million or \$(0.05) per share, compared to \$30.0 million or \$0.11 per share in the prior year. Adjusted EBITDA¹ was \$72.2 million compared to \$120.2 million in the prior year.

"Our third quarter results were below our expectations as we continue to navigate a challenging consumer environment and we are taking swift and decisive action to improve the performance of our business by broadening our appeal with customers and tightly managing costs and capital. This includes the introduction of the category's largest national cat and dog food value brands to meet the needs of all pet parents and deliver incremental profits over time," said Petco CEO Ron Coughlin. "We're confident these actions, combined with continued growth in services, omni-channel capabilities, an industry-leading premium assortment, and dedicated Petco partners will better position us to capture the long-term growth trends in the category and deepen our connection with all pet parents."

As previously disclosed, in the third quarter of 2023, Petco paid down \$15 million in principal on its term loan for a total of \$75 million in principal payments year-to-date.

On the earnings conference call, management will also outline an operational reset of the business, focusing on increasing profitability and competitive positioning. This will include an update on the cost action plan outlined in Q2, as part of targeting annualized gross run rate cost savings of \$150 million by the end of fiscal 2025, from merchandise, supply chain, and general G&A categories. The company continues to expect to achieve \$40 million in savings in year one.

Fiscal 2023 Guidance

The company is updating its fiscal 2023 guidance for Adjusted EBITDA and Adjusted EPS and now expects:

Metric*	2023 Guidance
Net Revenue	\$6.150 billion to \$6.275 billion
Adjusted EBITDA	approximately \$400 million
Adjusted EPS	approximately \$0.08
Capital Expenditures	\$215 million to \$225 million

*Assumptions in the guidance include that economic conditions, currency rates and the tax and regulatory landscape remain generally consistent. Adjusted EPS guidance assumes approximately \$145 to \$155 million of interest expense, an estimated \$43 to \$53 million increase in interest expense year-over-year, a 26 percent tax rate, and a 268 million weighted average diluted share count (prior guidance assumed a 269 million weighted average diluted share count). The Company estimates that the increase in interest expense will impact Adjusted EPS by approximately \$0.12 to \$0.15 per share. Furthermore, Fiscal 2023 will be a 53-week year, leading to an incremental week of operations. Adjusted EBITDA and Adjusted EPS are non-GAAP financial measures and have not been reconciled to the most comparable GAAP outlook because it is not possible to do so without unreasonable efforts due to the uncertainty and potential variability of reconciling items, which are dependent on future events and often outside of management's control and which could be significant. Because such items cannot be reasonably predicted with the level of precision required, we are unable to provide outlook for the comparable GAAP measures. Forward-looking estimates of Adjusted EBITDA and Adjusted EPS are made in a manner consistent with the relevant definitions and assumptions noted herein and in our filings with the Securities and Exchange Commission.

Earnings Conference Call Webcast Information:

NON-GAAP FINANCIAL MEASURES

The following information provides definitions and reconciliations of the non-GAAP financial measures presented in this earnings release to the most directly comparable financial measures calculated and presented in accordance with generally accepted accounting principles (GAAP). The company has provided this non-GAAP financial information, which is not calculated or presented in accordance with GAAP, as information supplemental and in addition to the financial measures presented in this earnings release that are calculated and presented in accordance with GAAP. Such non-GAAP financial measures should not be considered superior to, as a substitute for or alternative to, and should be considered in conjunction with, the GAAP financial measures presented in this earnings release. The non-GAAP financial measures in this earnings release may differ from similarly titled measures used by other companies.

The tables below reflect the calculation of Adjusted EBITDA (include Trailing Twelve Month Adjusted EBITDA), Adjusted Net Income, Adjusted EPS, and Free Cash Flow, for the thirteen weeks ended October 28, 2023, compared to the thirteen weeks ended October 29, 2022 as well as the twelve-month period ended January 28, 2023.

Adjusted EBITDA and Trailing Twelve Month Adjusted EBITDA

Adjusted EBITDA, including Trailing Twelve Month Adjusted EBITDA, is considered a non-GAAP financial measure under the Securities and Exchange Commission's (SEC) rules because it excludes certain amounts included in net income calculated in accordance with GAAP. Management believes that Adjusted EBITDA is a meaningful measure to share with investors because it facilitates comparison of the current period performance with that of the comparable prior period. In addition, Adjusted EBITDA affords investors a view of what management considers to be Petco's core operating performance as well as the ability to make a more informed assessment of such operating performance as compared with that of the prior period. Please see the company's Annual Report on Form 10-K for the fiscal year ended January 28, 2023 filed with the SEC on March 28, 2023 for additional information on Adjusted EBITDA.

Adjusted Net Income and Adjusted EPS

Adjusted Net Income and Adjusted diluted Earnings Per Share attributable to Petco common stockholders (Adjusted EPS) are considered non-GAAP financial measures under the SEC's rules because they exclude certain amounts included in the net income attributable to Petco common stockholders and diluted earnings per share attributable to Petco common stockholders calculated in accordance with GAAP. Management believes that Adjusted Net Income and Adjusted EPS are meaningful measures to share with investors because they facilitate comparison of the current period performance with that of the comparable prior period. In addition, Adjusted Net Income and Adjusted EPS afford investors a view of what management considers to be Petco's core earnings performance as well as the ability to make a more informed assessment of such earnings performance with that of the prior period.
